Chat with Walmart Shoppers
while they shop on your product pages

SALSIFY

## Connect brand product experts with shoppers on Walmart product pages

- **Connect with shoppers in real-time to drive conversions**

- **Get real-time feedback directly from shoppers to inform product and marketing strategy**

- **Ensure shoppers find the right products, reducing costly returns**

Get started with the customer service tools you already use

Salsify Chat integrates with Olark, LivePerson, Zendesk Enterprise Edition, Salesforce Live Agent, and Live Chat.

If you don't have an existing tool, Salsify can help set one up for your team.

Salsify Chat works with your team's schedule, chat is only available at the hours your team sets.

Manage all your product experiences from one platform

To deliver engaging product experiences for every channel and every shopper, you need more than a set of disparate applications.

You need a product experience management platform that combines powerful content management tools, syndication across your entire commerce ecosystem, analytics to optimize your digital shelf performance and more.

Salsify is the product experience management platform for thousands of brand manufacturers worldwide.
